5. Treasurer's report – Cath Ellerd-Elliott

Proposed: Kate Shaw

Seconded: Tom Brennan

Accepted unanimously

Points raised in relation to treasurer’s report: Stuart Clewlow queried not increasing the fees, and suggested that the club should have a buffer of 1-2 years cost in savings. This year running the club is running at a deficit. Concerned that next year would see a bigger increase in fees which might put people off renewing. Peter responded that he would look into this and try to find out where the guideline for such a buffer comes from.

Appendix 1. Informal discussion following the AGM covering the following points:

- Could the club's Facebook page be used more to engage people online, e.g. announcement and reminders on Facebook on the day of a gala?
- Discussion about why swimmers are less keen to attend galas, high drop-out rate, and people not letting Scott know if not attending at the last minute. Would a response deadline for gala participation help?
- The club should encourage swimmers to regard selection for the team as an honour. Not turning up for a gala after agreeing to take part is letting the side down.
- Parents should be expected to volunteer
- Could the club make use of Whatsapp or Instagram?
- Videos from club captains to encourage team spirit
- Can we bring back squad training e.g. last part of the Tuesday session?
- Could the club provide white shirts for all officials with the club name?
- Are there role descriptions for club captains, and do they need updating?
- Lift sharing – must be arranged between parents as the club is not able to get involved
- New members pack – needs revamping
- Some swimmers would value technical information about improving strokes and times
